2019/06 - 2020/02
Bogotá Dev
Bogota, Bogota

Full Stack Ruby on Rails Developer

As a fullstack developer at Bogota Dev I am in charge of all visual and backend end changes to the main page, bogotabootcamp.com and bogotadev.com. Since I speak Spanish and English fluently, I am in charge of communicating with US clients and writing the tickets to complete each project. Additionally, I attend standups with the team to go over all the tickets and what we should work on next.

2020/01 - Present
JD Blog
Orlando

Founder

Founder and lead developer of a community blog intended for creative minds that are looking for a new and sophisticated way of expressing themselves and their ideas. We encourage our writers to freely express their POV's on any subject.

2018/03 - Present
International Barquisimeto Model of United Nations
Barquisimeto, Lara

Co-Founder

As a Co-Founder of IBMUN my main task was to assemble a good, responsible and passionate group of young men and women capable of not only competing but, winning on the highest level. Also, I am in charge of scheduling the events we are attending and training all the members of the delegation.

2020/01 - Present
Freelancer
Orlando, Florida

Full Stack Developer

After relocating from Bogota to Orlando I have been working on various websites and different types of software, everything ranging from basic Business Websites to more complex social-media-type forums and chats.
